## ABOUT US

ClearCycle has been a leading provider of corporate Finance and Disbursement Systems for more than three decades.

ClearCycle is the leader in Finance and Disbursement Management technology. Since 1983, we have provided payment solutions to a wide cross-section of major American companies in Healthcare, Insurance, Retail, Manufacturing, and Logistics.

### » EXPERIENCE COUNTS

ClearCycle has been an innovator in helping customers to manage and resolve their most complex financial payment processes. We understand that our customers need solutions that improve their administrative efficiency, create costs savings and provide market insights that allow them to do business better. We excel at providing clients who face unique challenges with technology solutions that are straightforward, affordable, user-friendly, and easy to implement.

For over 3 decades, ClearCycle has consistently fulfilled the challenge of providing effective, money-saving cash management systems. Time and again, in a wide range of industries, our systems are providing efficient finance and disbursement solutions to increase payment efficiency at lower costs.

## OUR VALUE PROPOSITION

ClearCycle's goal is to form a partnership with our clients as they develop their business strategy and ensure maximum value is achieved. When a client decides to invest in a ClearCycle solution, our team of financial integration, training, and support experts strive to exceed our client's expectation.

We are committed to offering

- ✓ Highest degree of Return on Investment
- ✓ Least amount of time for Payback of Initial Investment
- ✓ Operational Cost Savings
- ✓ Operational Efficiencies
- ✓ Regulatory Compliance

ClearCycle provides a "turnkey" implementation, which seamlessly integrates with other business systems. Our Financial Solutions and Disbursement Products truly protect and leverage your existing systems investment in both legacy and latest generation technologies.

We are specialized in insurance claims and financial information management. You, as our client, will continue to experience a rapid and ongoing return of your investments. This is achieved as a result of operational improvements; transaction life-cycle management cost savings and improved tools to manage industry challenges such as audit, legislative or legal compliance. Most importantly, ClearCycle will continue to value long-lasting, meaningful business relationships with clients and partners.

With more than 200 installations of our products and financial tools in fortune 500 companies, we are the pioneer in financial solutions.

## OUR PRODUCTS

### ValuPay™

Our ValuPay System is a comprehensive payment disbursement system that works in conjunction with any core business system such as Vendor Management, Claims Adjudication, Broker, Provider, Medicare, Premium Billing and any other Payroll or ERP system.

It accepts payment data and all types of claims, capitation and commission records from all lines of business, across all platforms, business entities and computing environments. More than a simple payment system, ValuPay controls cash flow and consolidates payments, remittance advices and EOBs according to user-defined business rules. The system supports compliance with HIPAA and other government regulations including late payment interest and surcharge taxes.

### UCDS

**UCDS™** (Universal Claims Disbursement System) is a comprehensive claims payment disbursement system. UCDS accepts payment data and medical event records from all lines of service, across all platforms, business entities, and computing environments.

UCDS controls cash flow, consolidates payments, remittance advices and EOBs according to business rules associated with the data source.

**WebUCDS™** ("web portals") is a stand-alone web-based product that interfaces with UCDS. The data accessed by WebUCDS originates in the UCDS application and is the source for data returned by ClearCycle's web services.
